

LANGUAGE IMMERSION

When I was in second of the secondary, my English teacher, my classmates and I were talking about going to Güéjar Sierra for a language immersion, and last Monday finally we went. The first day when we arrived we met our teachers and they told us the rules and how we were going to work. The rest of the Monday and the other days, Tuesday and Wednesday, we did a lot of activities in English and they were very funny. We did different sports, like dance, badminton, football, speedy ball..., and the last day we had Olympic Games. On Tuesday we went to a reservoir and we walked ten kilometers but it was really very good because the reservoir was very beautiful. The thing that I less liked was the food. I had a great time because it was a new experience with my friends and the English activities were very funny. I also learnt some vocabulary. I would like to go again!
