

LANGUAGE IMMERSION

I went to a language immersion on 9th, 10th and 11th of October. I travelled with my classmates of 3rd ESO. We went by bus. We stayed in a big country house in Güejar-Sierra.

9th of October: We arrived at quarter past eleven, unpacked our bags and played a lot of games in English. Later we had lunch: salad, pasta and fruit. After lunch, we played lots of games. We had a shower and then we had dinner: soup, pizza and crème caramel. Then, we had a welcome party. We had a good time and I learnt new things about my classmates.

10th of October: We had to get up early for breakfast. We danced, but we were sleepy; we did speaking practice and later we went to the lake of Quentar. The lake is fantastic: the water is a beautiful turquoise colour. We returned to the country house. We had stew, squid and fruit for lunch. We did some physical exercise, and later we had a shower and then dinner: vegetable soup, roast chicken with chips and chocolate. We had a farewell party. This day was very tiring!

11th October: This day was shorter than the others. We had breakfast, did some speaking practice and later we had lunch: tuna and tomatoes, fideua with sausages and ice-cream. We did the packing and returned to Motril.

The experience was fantastic and very positive. I liked the visit to the lake most, the place was impressive. I didn't enjoy the physical exercise much.
